Open Area Sounder

The Open-Area Sounder has been designed for use in open areas and can be connected to any Discovery or XP95 System.

- For use with XP95A and Discovery systems
- Self-test trouble monitoring
- Two volume settings 92dB(A) and 100dB(A)
- Synchnization of tones
- Individual and group addressing
- Built-in-isolator
- Available in red or white
- Loop-powered
- IP65 rated

55000-001 XP95 Open-Area Sounder (Red)

Open-Area Sounder Visual Indicator

The Weatherproof Multi-Tone Open-Area Sounder Visual Indicator is designed for use in outdoor open areas and can be connected to any Discovery or XP95 system. The sounder visual indicator complements Apollo's intelligent and integrated base sounders as well as the multi-tone open-area sounder.

- Choice of tones on standard device: Apollo, Slow Whoop and DIN
- IP66 rated
- Two volume settings 92dB(A) and 100dB(A)
- Synchronization of 'alert' and 'evacuate' tones
- Individual and group addressing
- Built-in isolator

55000-298 Weatherproof Multi-Tone Open-Area Sounder Visual Indicator with isolator(Red)
55000-274 Weartherproof Multi-Tone Open-Area Sounder (Red)

Voice Sounder and Visual Indicator

The Discovery Open-Area Voice Alarm devices comprise a sounder and a sounder visual indicator that have been designed to provide clear instructional messages through the Discovery protocol. They are loop-powered wall mounted devices.

- Four pre-set message pairs, capable of up to 15 tone message pairs
- Low current and high volume
- Fully synchronized
- Set-up and test at point of installation

Open Area Sounder Visual Indicator

The Discovery Open-Area Sounder Visual indicator makes full use of the Discovery Protocol designed for use in indoor, outdoor and open areas.

- 15 tones pairs
- Sounder and visual indicator are independently configurable
- Volume and tones setting are independently selectable from the control panel
- Tones can be used for other purposes in addition to warning of fire, ideal for use in school etc
- Soft start option, ideal for hospitals and nursing homes
- Group and global control for increased response time

55000-009 Intelligent Open-Area Visual Indicator (Red lens)

Sounder Visual Indicator Base

The Sounder Visual Indicator base is a loop-powered sounder and visual indicator combined with a standard Intelligent mourning base. It is used to signal a fire alarm in enclosed areas. The sounder visual indicator base can be used either with a detector fitted or with a cap for operation as a stand-alone alarm device.

- Two volume ranges 55-75dB(A) and 75-91dB(A)
- Visual Indicator flash rate of once per second
- Synchronization of visual indicator flash
- Individual and group addressing
- Unique acoustic and visual indicator self-test
- Built-in isolator

45681-526 XP95A Sounder Visual Indicator Base (Red LEDs)

45681-393 Discovery Sounder Visual Indicator Base

Sounder Base with Isolator

The Discovery Sounder Base makes the full use of the Discovery protocol. For ease of commissioning a 'Magnetic Wand' can be used to test and adjust each sounder locally.

- 15 pairs of tones
- It is possible to set individual volume of the sounder from the panel
- Tones can be used for other purposes in addition to warning of fire, ideal for schools
- Enables soft start option, ideal for hospitals and nursing homes
