## ((•WIRELESS INTERCONNECT•))

### WIRELESS INTERCONNECT

Reliable and secure radio frequency communication between alarms. 915MHz frequency with 65,000 security codes and 3 channel frequency hopping.

### TALKING ALARM WITH LOCATION

When programmed, a voice will tell the location of unit if smoke is detected.

### MESH NETWORK COMMUNICATION

2-way communication format that sends, receives and re-sends the alarms signals providing a more reliable network.

### SILENCE FEATURE

Silences nuisance alarms.

### TAMPER RESISTANT

Locks alarm to mounting bracket to prevent removal of battery and / or alarms. Perfect for apartment, dormitory or hotel applications.
